Monroe County (IN) Church Records Index 1818-1900

This index contains names found in pre-1900 Monroe County church records, including those found in member registers, birth, baptism, marriage, and death or burial information, as well as histories, newspapers, and deed records. Indexing was done from hard copies of records, scanned images of pages, and microfilm. Most source material is on file in the Genealogy Library of the Monroe County History Center and can be copied there.

The Church name (2nd) column uses the name of the church at the time of the record used for coding. For churches whose names have changed over time, our physical files in the Library use the current church name. There is a finding aid in the front of the files that cross-reference names so a user can find, for example, that the Associate Reformed (New Light) Presbyterian records are stored in the United Presbyterian file.

The Record Source and Page columns refer to specific documents so labeled in the physical files. We do not have documents for the First Presbyterian and Reformed Presbyterian (Old Light) Churches of Bloomington, where the microfilm records are held only by the church.

Hints about the Notes column for the user: This column sometimes contains important information. When possible the family relationships contained in the church records are noted. However, using the hard copy material in the actual church files in the History Center's Library will often lead to families of parents and children, even if these are not explicit in the database. Another important datum sometimes coded in the Notes column is where the member came from before membership, and where they left for. Occasionally church records give the place in which the member lived. Examining the physical records might reveal details not included in the database.

Codes used for Entry Type are as follow:

Adm Admonished or rebuked
Bap Baptism
Bir Birth
Build Building-Related
Clgy Clergy (minister, nun, lay preacher, etc)
Coll Collection/donation of money or in-kind contribution
Conf Confirmation
Dth Death
Exc Excluded
Join Join the church
Lv Leave the church
Mar Marriage
Mem Member
Obit Obituary

Off Officer (Class leader, Committee Member, Deacon, Elder, Secretary, Steward, Treasurer, Trustee, etc.

Extensive efforts were made to gain access to records of all churches from that time period. However, in many cases the 19th century member registers were lost. In a few cases, we were denied access. There are 75 churches for which we obtained at least some members' names. Our church files include about 190 total churches, most of which were founded after 1900, and are therefore not included in the database.

Persons who worked on this project include: Nicole Bieganski, Matt Cesnik, Lee Ehman (project director), Gerald Marker, Maribeth McKaig, Kristen Milks, Nathaniel Pockras, Elizabeth Schlemmer, Chris Stroguiludis, Barbara Wilcox and Emily Winters.
