Monroe County Marriage Records Index, 1818-1881, 2nd Edition

Preface

Groom & Bride Sections

This index is divided into two sections separated by a colored sheet, the first alphabetically by groom's surname, and the second by the bride's surname.

Column Descriptions

Columns 1 & 2: Names of the groom and bride, surname first.

Column 3: date of marriage in a Year Month Day format: 18770323 indicates March 23, 1877.

Column 4: Marriage Book letters/numbers, A & B & 3-6.

Column 5: Page number.

Page Numbering in Books A & B

For Books A & B only there are two leaves with the same page number. The left hand leaf contains the marriage application, while the right hand leaf contains the "return," where the official performing the marriage attests to that fact with a date.

No Return -- "NR" in Date Column

If there is no return, it means either that the marriage did not occur, or the official failed to come to the county clerk's office to verify it. In most cases it is not possible to know which.

Occasionally there is additional information, as in Book 6 page 426: "This License was returned Jan 19, 1880, the parties not being married, the Lady declining." A more humorous note is found on Book 6 page 137: "License returned not married," followed by: "A slip between the cup and the lip."

Spelling Variations & Handwriting Problems

The entries usually involve two different persons, the clerk and the official performing the marriage. Therefore, there are variations in spelling and handwriting. The index includes some double entries, with two different spellings of surnames, when the two different persons disagreed on the name, or when the nineteenth century handwriting is difficult to interpret. For example, a surname might be "Lee" or "See," depending on one's interpretation. Both names have been entered. Similarly, the clerk might write "Coons" and the marrying official "Koons." Again, both are entered. When there is a difference in first names or middle names or initials, the alternative is put in parens.

Editions

The second edition was created by checking the first edition index against the entries in each original marriage book, and making necessary corrections. The re-indexing was done by Lee Ehman in January-March 2016. The first edition was computerized and indexed by Rachel Rice and proofread by Rachel Rice, Marilyn McCoy and Claude F. Rice, and was published by the Monroe County Historical Society in 1995.

Copies

Each page of the original marriage books has been digitized. Copies are not made from the original books in order to prevent damage. Copies from the digital files can be made by Research Library staff for a fee.
