

**Vertical File Index
Monroe County History Center
Research Library**

Last updated: September 29, 2022

Please note:

See (underlined) refers to the subject heading where material on a topic may be found.

See also lists related subject headings where additional material on a topic may be found.

Files on a particular family are titled with just the last name (i.e., "Seward," not "Seward Family"). The library has a separate section of Family Files containing lineage information.

Information on certain communities (i.e., "Ellettsville") is included in the Vertical Files. The library also has a separate section of Community Files in File Cabinet 2.
